DECLARATIONS OF INTEREST

Section 5.65 and 5.70 of the Local Government Act 1995 requires an Elected Member or officer who has an interest in any matter to be discussed at a Committee/Council Meeting that will be attended by the Elected Member or officer must disclose the nature of the interest in a written notice given to the Chief Executive Officer before the meeting; or at the meeting before the matter is discussed.

An Elected Member who makes a disclosure under section 5.65 or 5.70 must not preside at the part of the meeting relating to the matter; or participate in; or be present during, any discussion or decision-making procedure relating to the matter, unless allowed by the Committee/Council. If Committee/Council allow an Elected Member to speak, the extent of the interest must also be stated.

DISCLAIMER

The purpose of Council Meetings is to discuss, and where possible, make resolutions about items appearing on the agenda. Whilst Council has the power to resolve such items and may in fact, appear to have done so at the meeting, no person should rely on or act on the basis of such decision or on any advice or information provided by a Member or Officer, or on the content of any discussion occurring, during the course of the meeting.

Persons should be aware that the provisions of the Local Government Act 1995 (Section 5.25 (e)) establish procedures for revocation or rescission of a Council decision. No person should rely on the decisions made by Council until formal advice of the Council decision is received by that person. The Shire of Halls Creek expressly disclaims liability for any loss or damage suffered by any person as a result of relying on or acting on the basis of any resolution of Council, or any advice or information provided by a member or Officer, or the content of any discussion occurring, during the course of the Council meeting.

APPLICATION FOR LEAVE OF ABSENCE

In accordance with Section 2.25 of the *Local Government Act 1995*, an application for leave requires a Council resolution granting leave requested. Council may grant approval for Leave of Absence for an Elected Member for ordinary Council meetings for up to but not more than six consecutive meetings. The approval of the Minister is required for leave of absence greater than six ordinary Council meetings.

8. ANNOUNCEMENTS BY PRESIDING MEMBER WITHOUT DISCUSSION

There were no items for this section at the time of preparing the agenda.

9. OFFICERS REPORTS

9.1 OFFICE OF THE CHIEF EXECUTIVE OFFICER

9.1.1 Donation – 2024 Halls Creek Rodeo and Campdraft

ITEM NUMBER:	9.1.1
REPORTING OFFICER:	Musa Mono, Acting Chief Executive Officer
SENIOR OFFICER	Musa Mono, Acting Chief Executive Officer
MEETING DATE:	18 April 2024
DISCLOSURE OF INTEREST:	Nil

1.0 Matter for Consideration

1.1 For Council to consider and approve a 'donation' to the 2024 Halls Creek Rodeo and Campdraft for the provision of waste management receptacles and services.

2.0 Background

2.1 The Shire has been approached by the Kimberley Stampede Rodeo Club to provide sponsorship for the 2024 Halls Creek Rodeo and Campdraft.

2.2 In previous years, the Shire had contributed to the event by providing waste management receptacles and collection services. This included the supply and delivery of bins, and daily collections while the event was on. In addition, last year the Shire contributed \$5,000 in corporate sponsorship.

2.3 The annual Rodeo and Campdraft is considered to be a worthwhile event to contribute to given the benefits to the community for having the low cost family event.

3.0 Comments

3.1 Within the 2023-2024 budget, an allowance was not made for an additional donation to be made for the 2024 Rodeo and Campdraft event. Therefore, it is proposed that the waste management is provided in-kind to the event in line with previous years' arrangements.

4.0 Statutory Environment

4.1 *Local Government Act 1995*

Section 2.7(2) Provides that Council is to oversee the allocation of local government finances and resources and to determine the local government policies.

Section 3.1 – Provides that the general function of the local government is to provide for the good government of persons in its district.

5.0 Strategic Implications

5.1 Objective:

1. Social: Vibrant and connected communities. We support cultural and language diversity.

5.2 Outcome:

Social - 1.8 Our community has access to a wide range of passive and active recreation, cultural and sporting facilities, events, clubs and opportunities, in particular football.

5.3 Strategy:

Social - 1.8.3 Support the development of sports and recreation facilities and programs in the town and communities

6.0 Policy Implications - Nil

7.0 Financial Implications

7.1 The estimated cost of providing the waste management services across the four day event is \$2,200. This includes the supply and delivery of the bins, daily collection, including a provision for overtime for staff to do the collection over the weekend, and the collection of the bins after the event. There is sufficient existing budget to cover these costs.

8.0 Sustainability Implications

8.1 Environmental

There are no significant identifiable environmental impacts arising from adoption of the officer's recommendation.

8.2 Economic

There are no significant identifiable economic impacts arising from adoption of the officer's recommendation.

8.3 Social

9.3 INFRASTRUCTURE SERVICES

9.3.1 Budget Amendment – Flood Damage New Event

ITEM NUMBER:	9.3.1
REPORTING OFFICER:	Les Vidovich, Executive Manager Infrastructure Services
SENIOR OFFICER	Musa Mono, Acting Chief Executive Officer
MEETING DATE:	18 April 2024
DISCLOSURE OF INTEREST:	Nil

1.0 Matter for Consideration

- 1.1 For Council to consider and approve a budget amendment to allow for emergency opening up works to occur under a new flood damage claim (yet to be approved) of which the expenditure will be reimbursed by DFES in due course resulting in an overall net-zero financial outcome.

2.0 Background

- 2.1 During the 2024 wet season, significant damage was sustained to the Shire's road network. The damage was sustained across the network, and is expected to affect communities, residents, visitors and staff significantly if unaddressed.
- 2.2 The Shire has made a notification to the Department of Fire and Emergency Services (DFES) that there is an intention to lodge a Flood Damage claim.
- 2.3 In the interim, DFES allows 'emergency works' to be undertaken which are 100% reimbursable while the Flood Damage claim is submitted, assessed and approved. This process can take up to a year.
- 2.4 To allow for the emergency works to be undertaken, a budget amendment is required to allow these works to commence within this financial year. The Shire's Engineering Consultant Greenfields has estimated the value of these works within this current financial year is \$255,000.
- 2.5 The works will be 100% reimbursable by DFES, with the wait time for reimbursement significantly lower than that of the standard claim process (i.e. four to six weeks as opposed for four to six months).

3.0 Comments

- 3.1 Emergency opening up works are required across the Shire to ensure that residents, ratepayers, visitors and the like are able to travel safely through the Shire, receive services and deliveries, and maintain linkages for commercial endeavours. The emergency opening up works are essential in

this financial year, and cannot wait until the new budget of 2024/25 to commence.

4.0 Statutory Environment

4.1 Local Government Act 1995

Section 2.7(2) Provides that Council is to oversee the allocation of local government finances and resources and to determine the local government policies.

Section 3.1 – Provides that the general function of the local government is to provide for the good government of persons in its district.

5.0 Strategic Implications

5.1 Objective:

4. Civic: Working together to strengthen leadership and effective governance.

5.2 Outcome:

Civic - 4.2 A customer focussed Council which welcomes inquiries and seeks positive outcomes for all residents and customers

5.3 Strategy:

Civic - 4.1.3 Council decisions are consistent, reliable and transparent

6.0 Policy Implications - Nil

7.0 Financial Implications

7.1 The estimated value of the emergency opening up works is \$255,000. Therefore the budget amendment required is as follows:

NEW Expenditure account – 2024 Emergency Works \$255,000

NEW Income account – 2024 Emergency Works \$255,000

*Note: the timeframes for reimbursement approximately four to six weeks.

8.0 Sustainability Implications

8.1 Environmental

There are no significant identifiable environmental impacts arising from adoption of the officer's recommendation.

8.2 Economic

There are no significant identifiable economic impacts arising from adoption of the officer's recommendation.

8.3 Social

If the recommendation is not passed, road network may not be accessible for all resident and communities.

8.4 Risk

Likelihood (refer Potential Risk Likelihood Guide)	Impact (4) Access to and from communities will be jeopardised, resident complaints likely to increase.		
	Minor	Medium	High
Low (unlikely)	1	2	3
Moderate (likely)	2	4	6
High (very likely)	3	6	9

Risk	
Low Risk	
a risk / activity with a score of 2 or less	N/A
Moderate Risk	
a risk / activity with a score between 3 or 4 more is moderate risk	N/A
High Risk	
a risk activity with a score of 6 or more is a high risk	senior management team attention is required and specific and immediate control measure(s) assigned to manage risk within risk criteria
Risk Control Measure	Accept the Officer's Recommendation and approve the budget amendment.

9.0 Council Resolution

<p>COUNCIL RESOLUTION: 2024/137</p> <p>Mover: Cr Patricia McKay Seconder: Cr Raymond Simpson</p> <p>That Council:</p> <p style="text-align: center;">APPROVE the budget amendment as outlined in the financial implications section of this report.</p> <p style="text-align: right;">CARRIED: 7/0</p> <p style="text-align: right;">ABSOLUTE MAJORITY</p>

4.0 Statutory Environment:

- 4.1 Regulation 13A of the *Local Government (Financial Management) Regulations 1996* provides that a list of all payments made by an authorised employee using a credit, debit or other purchasing card be prepared and presented to Council.

Event Likelihood / Impact Matrix			
Likelihood (refer Potential Risk Likelihood Guide)	Impact - The Financial reporting is comprehensive - meeting compliance under the LG Act. The current financial position in terms of timing and financial performance against Budget and known events carries high risk. This is because of the variance levels between YTD budget and actual revenue & expenditure along with the continuation of a deficit since November 2021. Delays between expenditure and receiving revenue by funders, and apparent permanent unfavourable variance in Transport is making cash flow very tight. This is manageable as a result of the recent approval by Council of a transfer from Reserve funds. Management is focused on managing cash flow for the rest of the financial year.

SHIRE OF HALLS CREEK
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD ENDED 31 MARCH 2024

1 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PREPARATION

This prescribed financial report has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996*, prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Local Government (Financial Management) Regulations 1996, regulation 34 prescribes contents of the financial report. Supporting information does not form part of the financial report.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

Matters of non-compliance with Basis of Preparation

The following matters of non-compliance with the basis of preparation have not been corrected.

1. Balances as at 30 June 2023 have not been finalised and will be subject to change.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements.

Judgements and estimates

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimated fair value of certain financial assets
- impairment of financial assets
- estimation of fair values of land and buildings, infrastructure and investment property
- estimation uncertainties made in relation to lease accounting

SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies utilised in the preparation of these statements are as described within the 2023-24 Annual Budget. Please refer to the adopted budget document for details of these policies.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 08 April 2024

SIGNIFICANT ACCOUNTING POLICIES

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Initial recognition and measurement for assets held at cost

Plant and equipment including furniture and equipment is recognised at cost on acquisition in accordance with *Financial Management Regulation 17A*. Where acquired at no cost the asset is initially recognise at fair value. Assets held at cost are depreciated and assessed for impairment annually.

Initial recognition and measurement between mandatory revaluation dates for assets held at fair value

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

KEY INFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

KEY INFORMATION

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

KEY INFORMATION

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the period that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

KEY INFORMATION

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature. Non-current borrowings fair values are based on discounted cash flows using a current borrowing rate.

Please note these Minutes are yet to be confirmed.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

SHIRE OF HALLS CREEK

OBJECTS AND REASONS

DIFFERENTIAL GENERAL RATES 2024/2025 FINANCIAL YEAR

The Shire of Halls Creek provides facilities and services to residents and visitors to the Shire. The revenue collected through rates makes up the short fall between the cost of these services and the income received from other sources.

In considering available rating options, including differential rates and minimum payments, the Shire has applied the principles of rating which includes fairness and equity, consistency, transparency, and administrative efficiency to determine the level and structure of rates levied.

The table below summarises the rating structure proposed for 2024/25:

Description	Characteristics	Objects	Reasons
Gross Rental Value (GRV)	All properties where the basis of rate is the Gross Rental Value (GRV)	This rate is to contribute to service desired by the community.	Uniform rate for all GRV properties
Unimproved Value (UV) Rural	All properties where the basis of rate is the Unimproved Value (UV) and not within any other rating category.	This rate contributes to the service desired by the community.	This is considered the base rate above which all other UV rated properties are assessed.
Unimproved Value (UV) Mining	Properties where the basis of rate is the Unimproved Value (UV) and a land use associated with exploration/prospecting or mining leases/tenements.	The objective is to achieve an appropriate contribution from mining and exploration activities toward the budgeted deficiency.	Due to the difference in valuation methodology and recognise the impact of mining related activities on the Shire.

Minimum payments are to be determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services/facilities.

Main Office: 2 Halls Street, Halls Creek WA 6770 between 8.00am to 4.00pm Monday to Friday and via telephone on (08) 9168 6007.
