MANAGEMENT TEAM

Chief Executive Officer

Mr Warren Olsen

Executive Manager, Corporate Services

Ms Andrea Nunan

Manager Works and Services

Mr Andrew Vonarx

Manager Regulatory Services

Mr Edmore Masaka

2010-2011 ADOPTED BUDGET

OBJECTIVES AND ACTIVITIES

The Shire of Halls Creek continues to maintain its detailed listing of works and services in Programme order. A brief description of what is included in each Programme is as follows:

Programme 3 - GENERAL PURPOSE FUNDING

Objective: To collect general revenue to allow for the provision of service Activities: Rates, General purpose government grants and interest revenue

Programme 4 - GOVERNANCE

Objective: To provide a decision making process for the efficient allocation of scarce resources
Activities: Administration and operation of facilities and services to members of Council; Other costs that relate to tasks of
assisting elected members and ratepayers on matters which do not concern specific council services.

Programme 5 - LAW, ORDER & PUBLIC SAFETY

Objective: To provide services to help ensure a safer community.

Activities: Supervision of various by-laws, fire prevention, emergency services and animal control.

Programme 7 - HEALTH

Objective: To provide an operational framework for good community health.

Aboriginal Environmental Health Programme

This scheme is funded by the Health Department of Western Australian, with the main aim being to ensure the delivery of environmental health services to aboriginal communities, addressing specific needs and requirements of such communities.

Health Admin & Inspection

Expenditure related to the general administration and delivery of environmental services such as food inspections, issuing of licences such as stall-holder and hawker licences, and the general administration role as required by the Shire in accordance with the Health Act.

Pest Control and Analytical

Allocation to enable the Environmental Health Officer to undertake food sampling and other testing with relevant testing authorities in Perth. Allocation also for actions required for mosquito control

Programme 8 - EDUCATION, WELFARE and COMMUNITY DEVELOPMENT

Objective: To provide funds for the operations of youth related programmes within Halls Creek town and outlying remote communities and to support and encourage associated programmes for the benefit of the youth of the Shire.

Activities: General youth services such as arts, cooking and sport, Remote Youth Development Officers, and Co-Ordination of the Youth Services Hub throughout the Shire

Programme 9 - HOUSING

Objective: Provision of adequate housing for Shire staff

Activities: Maintenance and operations of staff housing, capital repairs and maintenance, as well as new construction

Programme 10 - COMMUNITY AMENITIES

Objective: Provide services required by the community.

Activities: Refuse collection services and refuse site maintenance, administration of the Shire's Town Planning function,

maintenance and management of the Shire's Cemetery, and certain community development projects

Programme 11 - RECREATION AND CULTURE

Objective: To establish and manage efficiently infrastructure and resources which will help the social development and well being of the community.

Activities: Includes Maintenance and operation of Civic Halls, Sports Courts, Oval, Aquatic & Recreation Centre, Library, an internet access point, Club Development Officer, Rebroadcasting services and the culture background of Halls Creek such as the Trackers Hut.

2010-2011 ADOPTED BUDGET

OBJECTIVES AND ACTIVITIES - Continued

Programme 12 - TRANSPORT

Activities: Construction and maintenance of streets, roads, bridges, cleaning and lighting of streets and the operation of the airport.

Construction Streets & Roads

To provide for major upgrading works to the Shire of Halls Creek's significant road infrastructure which in ensures that major streets and roads within the district are of a reasonable suitable to accommodate all modes of transport and for the safety aspect of all users.

Maintenance Streets & Roads

To maintain Council's vast road network to an standard acceptable for all residents and visitors to the district. Also includes is special expenditure for the Local Roadwise Group, by way of grants that are auspiced by the Shire.

<u>Aerodromes</u>

To provide safe aircraft landing and take-off facilities for aircraft travelling to and through the district for private charter and emergency services users, by regular inspection and maintenance procedures for runways, runway strips, markers, windsock and lighting.

Programme 13 - ECONOMIC SERVICES

Objective: To help promote the Shire and improve its economic well being. Activities: The regulation and provision of tourism, area promotion and building control

Tourism and Area Promotion

To attract and retain the travelling public and tourists to our town and district by the promotion of natural and man made attractions in the area by the clear, which includes the management of the Halls Creek Visitors Centre and adjoining café.

Building Control

Allocation of funds to enable ensure that the construction of new buildings or improvement of existing buildings meets both legislation requirements and national building codes, as well as relevant Council policies.

Programme 14 - OTHER PROPERTY & SERVICES

Public Works Overheads

All costs associated with the employment of Works Section staff are assigned to this sub-programme and are then re-allocated to the relevant programme during the course of the year through overheads recovery

Plant Operation Costs

All costs associated with the operation of Council's plant fleet are assigned to this sub programme, and throughout the year are reallocated to relevant work jobs on which the plant worked, to obtain accurate costs of that job. items of plant which determine actual costs. Costs include fuels, oils, repairs and deprecation

Salaries & Wages

This sub Programme identifies the total salaries and wages costs expected for the year and these are also reallocated throughout all sub Programmes during the financial year to reflect true costs.

Misc/Unclassified

This sub programme records both income and expense for goods/services that cannot be allocated to a particular job or programme. It includes expenses incurred by the Shire as part of the MUNS implementation trial, as well as the Arts Development and Cultural maintenance project the Shire is facilitating for the Yaryilil Artist Group.

Administration:

All costs associated with the employment of the Shire's Administration Section staff are assigned to this programme, and are then re-allocated to the relevant programmes to represent the administrative cost of that programme/ subprogramme

2010-2011 ADOPTED BUDGET

SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies which have been adopted in the preparation of this financial report are:

(a) Basis of Accounting

The budget has been prepared in accordance with applicable Australian Accounting Standards (as they apply to local government and not-for-profit entities), other mandatory professional reporting requirements, the Local Government Act 1995 (as amended) and accompanying regulations (as amended). The budget has also been prepared on the accrual basis under the convention of historical cost accounting, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

(b) The Local Government Reporting Entity

All Funds through which the Council controls resources to carry on its functions have been included in the financial statements forming part of this budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements, but a separate statement of those monies appears at Note 8 to this budget document.

(c) 2007/08 Actual Balances

Balances shown in this budget as 2007/08 Actual are as forecast at the time of budget preparation and are subject to final adjustments.

(d) Rounding Off Figures

All figures shown in this budget, other than a rate in the dollar, are rounded to the nearest dollar.

(e) Rates, Grants, Donations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions. Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

(f) Goods and Services Tax

In accordance with recommended practice, revenues, expenses and assets capitalised are stated net of any GST recoverable. Receivables and payables are stated inclusive of applicable GST.

(g) Cash and Cash Equivalents

Cash and cash equivalents comprise cash at bank and in hand and short-term deposits that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the Cash Flow Statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts. Bank overdrafts are included as short-term borrowings in current liabilities.

(h) Trade and Other Receivables

Trade receivables, which generally have 30 - 90 day terms, are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method, less any allowance for uncollectible amounts.

Collectibility of trade receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

2010-2011 ADOPTED BUDGET

SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Inventories

General

Inventories are valued at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Inventories held from trading are classified as current even if not expected to be realised in the next 12 months.

Land Held for Resale

Land purchased for development and/or resale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development and interest incurred on the financing of that land during its development. Interest and holding charges incurred after development is complete are recognised as expenses.

Revenue arising from the sale of property is recognised in the operating statement as at the time of signing a binding contract of sale.

Land held for resale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

(j) Fixed Assets

Initial Recognition

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed includes the cost of all materials, direct labour and variable and fixed overheads.

Revaluation

Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. For infrastructure and other asset classes where no active market exists, fair value is determined to be the current replacement cost of an asset less, where applicable, accumulated depreciation calculated on a basis to reflect the already consumed or expired future economic benefits.

Those assets carried at a revalued amount, being their fair value at the date of revaluation less any subsequent accumulated depreciation and accumulated impairment losses, are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

Land Under Roads

IN Western Australia, all land under roads is Crown Land; the responsibility for managing which, is vested in the Local Government.

Effective as at 01 July 2008, Council elected not to recognise any value for land under roads acquired on or before 30 June 2008. This accords with the treatment available in Australian Accounting Standard AASB 1051-Land Under Roads, and the fact Local Government (Financial Management) Regulation 16(a)(i) prohibits local governments from recognising such land as an asset.

In respect of land under roads acquired on or after 01 July 2008, as detailed above, Local Government (Financial Management) Regulation 16 (a)(i) prohibits local governments from recognising such land as an asset.

Whilst such treatment is incosistent with the requirements of AASB 1051, Local Government (Financial Management) Regulation (4)(2) provides, in the event of such an inconsistency, the Local Government (Financial Management) Regulations prevail.

Consequently, any land under roads acquired on or after 01 July 2008 is not included as an asset of the Shire.

(k) Depreciation of Non-Current Assets

All non-current assets having a limited useful life are separately and systematically depreciated over their useful lives in a manner which reflects the consumption of the future economic benefits embodied in those assets. Assets are depreciated from the date of acquisition or, in respect of internally constructed assets, from the time the asset is completed and held ready for use.

Property, Plant and Equipment

Depreciation is recognised on a straight-line basis, using rates which are reviewed each reporting period. Major depreciation periods are:

Buildings 40 years
Plant 5 - 15 years
Furniture and Equipment 4 - 10 years
Plant and Equipment 5 - 10 years

2010-2011 ADOPTED BUDGET

SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets are depreciated from the date of acquisition or, in respect of internally constructed assets, from the time the asset is completed and held ready for use.

Property, plant and equipment is capitalised if the valuation adds to the value of the asset and exceeds:

Land Nil Buildings \$5,000 Plant \$3,000 Furniture and Equipment \$3,000

Minor Tools and Computer equipment are considered as operating costs and not capitalized.

Infrastructure

All infrastructure constructed or acquired during the year is capitalized and depreciated over its useful life Infrastructure is classified under the following headings:

Roads Infrastructure -

Infrastructure assets are depreciated on a straight-line basis over the following estimated useful lives:

Road - Unformed not depreciated
Roads - Gravel 15 years
Roads - Sealed 50 years
Kerbing & Footpaths 20 years
Airfields/Runways 20 years

(I) Investments and Other Financial Assets

Classification

Council classifies its investments in the following categories: financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its investments at initial recognition and, in the case of assets classified as held-to-maturity, re-evaluates this designation at each reporting date.

(i) Financial assets at fair value through profit and loss
Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset
is classified in this category if acquired principally for the purpose of
selling in the short term. Derivatives are classified as held for trading unless they are
designated as hedges. Assets in this category are classified as current assets.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the balance sheet date which are classified as non-current assets. Loans and receivables are included in trade and other receivables in the balance sheet.

2010-2011 ADOPTED BUDGET

SIGNIFICANT ACCOUNTING POLICIES (Continued)

(I) Investments and Other Financial Assets (Continued)

Classification (Continued)

(iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Council's management has the positive intention and ability to hold to maturity. If Council were to sell other than an insignificant amount of held-to-maturity financial assets, the whole category would be tainted and reclassified as available-for-sale. Held-to-maturity financial assets are included in non-current assets, except for those with maturities less than 12 months from the reporting date, which are classified as current assets.

(iv) Available-for-sale financial assets

Available-for-sale financial assets, comprising principally marketable equity securities, are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the balance sheet date. Investments are designated as available-for-sale if they do not have fixed maturities and fixed or determinable payments and management intends to hold them for the medium to long term.

Recognition and derecognition

Regular purchases and sales of financial assets are recognised on trade-date – the date on which Council commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value and transaction costs are expensed in the income statement. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and Council has transferred substantially all the risks and rewards of ownership.

When securities classified as available-for-sale are sold, the accumulated fair value adjustments recognised in equity are included in the income statement as gains and losses from investment securities.

Subsequent measurement

Loans and receivables and held-to-maturity investments are carried at amortised cost using the effective interest method.

Available-for-sale financial assets and financial assets at fair value through profit and loss are subsequently carried at fair value. Gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss category are presented in the income statement within other income or other expenses in the period in which they arise. Dividend income from financial assets at fair value through profit and loss is recognised in the income statement as part of revenue from continuing operations when Council's right to receive payments is established. Changes in the fair value of other monetary and non-monetary securities classified as available-for-sale are recognised in equity.

Impairment

Council assesses at each balance date whether there is objective evidence that a financial asset or group of financial assets is impaired. In the case of equity securities classified as available-for-sale, a significant or prolonged decline in the fair value of a security below its cost is considered as an indicator that the securities are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss- measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss – is removed from equity and recognised in the income statement. Impairment losses recognised in the income statement on equity instruments classified as available-for-sale are not reversed through the income statement.

2010-2011 ADOPTED BUDGET

SIGNIFICANT ACCOUNTING POLICIES (Continued)

(m) Estimation of Fair Value

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date.

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. Council uses a variety of methods and makes assumptions that are based on market conditions existing at each balance date. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, and option pricing models making maximum use of market inputs and relying as little as possible on entity-specific inputs.

Quoted market prices or dealer quotes for similar instruments are used for long-term debt instruments held. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments.

The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Council for similar financial instruments.

(n) Impairment

In accordance with Australian Accounting Standards the Council's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an estimate of the recoverable amount of the asset is made in accordance with AASB 136 "Impairment of Assets" and appropriate adjustments made.

An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in the Income Statement.

For non-cash generating assets such as roads, drains, public buildings and the like, value in use is represented by the depreciated replacement cost of the asset.

At the time of adopting the budget, it is not possible to estimate the amount of impairment losses (if any) as at 30 June 2009.

In any event, an impairment loss is a non-cash transaction and consequently, has no impact on this budget document.

(o) Trade and Other Payables

Trade and other payables are carried at amortised cost. They represent liabilities for goods and services provided to the Municipality prior to the end of the financial year that are unpaid and arise when the Municipality becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

(p) Employee Benefits

The provisions for employee benefits relates to amounts expected to be paid for long service leave, annual leave, wages and salaries and are calculated as follows:

(i) Wages, Salaries, Annual Leave and Long Service Leave (Short-term Benefits) The provision for employees' benefits to wages, salaries, annual leave and long service leave expected to be settled within 12 months represents the amount the municipality has a present obligation to pay resulting from employees services provided to balance date. The provision has been calculated at nominal amounts based on remuneration rates the Council expects to pay and includes related on-costs.

2010-2011 ADOPTED BUDGET

SIGNIFICANT ACCOUNTING POLICIES (Continued)

(ii) Annual Leave and Long Service Leave (Long-term Benefits)

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match as closely as possible, the estimated future cash outflows. Where Council does not have the unconditional right to defer settlement beyond 12 months, the liability is recognised as a current liability.

(q) Interest-bearing Loans and Borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

Borrowings are classified as current liabilities unless the Council has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Borrowing Costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset.

(r) Provisions

Provisions are recognised when: The council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

(s) Superannuation

The Shire of Halls Creek contributes to the Local Government Superannuation Scheme and the Occupational Superannuation Fund. Both Funds are defined contribution schemes.

Contributions to defined contribution plans are recognised as an expense as they become payable. Prepaid contributions are recognised as an asset to the extent a cash refund or a reduction in the future payments is available.

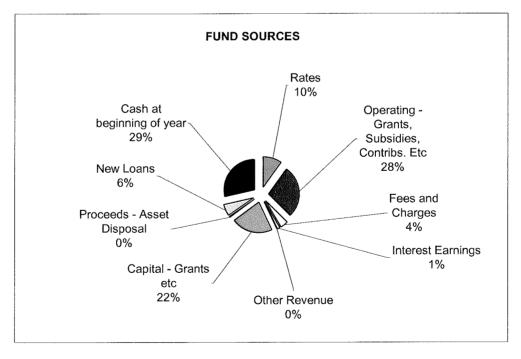

(t) Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non-current based on Council's intentions to release for sale.

Sub-Totals		164	0	102,414	0	102,414	90,415
Sub Total		783		1,524,712		1,524,712	1,477,505
Discounts						_	-
Totals						1,524,712	1,477,505

All land except exempt land in the Shire of Halls Creek is rated according to its Gross Rental Valuations (GRV) or Unimproved Valuations (UV), depending on its location

The general rates detailed above for 2010/11 financial year have been determined by Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the 2010/11 Budget and the estimated revenue to be received from all sources other than rates, and also bearing in mind the extend of any increase in rating over the level adopted in the previous financial year

The advertised intented differential rates, advertised July 2010 were:

Category	R/\$	Minimum	
UV Rural/Pastoral	2.05		560
UV Mining	27.55		560
UV Exploration	13.77		560
UV Prospecting	13.77		560
GRV Town improved	11.37		600
GRV Town vacant	22.74		1123

Ministerial Approval was granted August 2010 to impose a differential rate that was more than twice the lowest differential rate imposed. Ministerial approval was also granted to allow a higher number of properties than prescribed to be levied with minimum rates

Page 27

2010-2011 ADOPTED BUDGET

Note 6 - RATE REVENUE AND VALUATION INFORMATION (Continued)

6 (b) Instalment Options

The Local Government Act 1995 provides ratepayers with the option of paying by instalments.

Payment must be made in full (one single payment) by 15 November 2010 or by a four-instalment plan with due dates being

Instalment 1	15/11/2010
Instalment 2	17/01/2011
Instalment 3	14/03/2011
Fourth and final instalment	16/05/2011

If an election to pay by four instalments is made, charges will apply: An administration charge of \$12.00 per instalment (excluding first instalment) is payable, in addition to administration interest of 5.5% per annum. This is applied on a simple interest basis, calculated on the amount of each instalment for the period between the due date of the first instalment and the due date of each subsequent instalment

To be eligible for the instalment option, any outstanding rates and charges (including penalty interest) must be paid in full with the first instalment. If the outstanding charges are not paid in full with the 1st instalment OR if the first instalment is not received by the due date, the option to pay by four instalments is revoked/withdrawn

6 (c) Interest Penalty on Outstanding Rates

Penalty interest of 11% per annum, calculated daily, will be charged on all unpaid rates and the Emergency Services levy, from the date the charges were due until the date the charges are paid in full. This is pursuant to Local Government Act 1995

Where an election to pay by instalment has been made, penalty interest of 11% per annum, calculated daily, will be applied from the date the instalment was due until the date the instalment (including accrued penalty interest) is paid in full

If, at the time an instalment falls due (other than the first instalment) and a previous instalment remains unpaid, then the right to pay by instalments is withdrawn/revoked and the outstanding balance of rates and charges becomes due and payable immediately.

Penalty Interest on Monies owing to the Shire

Pursuant to Section 6.13 of the Local Government Act 1995, interest of 11% per annum will be charged on all overdue monies owed to the Shire. Interest will apply from the due date (not less than 35 days from date of issue)

6 (d) Differential Rating

The Shire applies differential rating to those properties that are valued using the Unimproved (UV) method and the Gross Rental (GRV) method

The UV categories are UV Mining, UV Exploration and Prospecting, and UV Pastoral/Rural The GRV Categories are GRV Town Improved and GRV Town Vacant

6 (e) Service Charges

The service charge is for the provision of television rebroadcasting services. The charge is applicable to all owners and occupiers within a designated area surrounding the location of the broadcasting facility. The proceed of the service charge are applied in full to offset the cost of maintenance and operation of the facility.
